-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Art Unit: 1746

1. The indicated allowability of claim 4 is withdrawn in view of the newly discovered reference(s) to Japan'916. Rejections based on the newly cited reference(s) follow.

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1-3 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Japan'916 (Japan 2001-275916).

Re claim 1 for example, note that Japan'916 discloses a dishwasher comprising:

a main body (1) having generally a box shape with an open front;

a washer tub (3) being extracted from and retracted into the main body through the open front by means of slide rail assemblies (4), the washer tub having an open top;

a lid (21, see fig. 2) being located at an upper part of the main body when the washer tub is fully extracted and being moved downward as the washer tub is retracted, the lid closing the open top of the washer tub when the washer tub is fully retracted to be accommodated in the main body; and

an extension (as at 3b) member extending backward from a top rear portion of the washer tub,

wherein, when the washer tub is fully extracted (see fig. 2 and 3) from the main body, an inner wall rear wall of the washer tube is located in front of, a front end of the main body and a free end of the extension is placed under the lid.

4. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

5. Claim 4 is rejected under 35 U.S.C. 103(a) as being unpatentable over Japan'916 .

Claim 4 is defines over the applied prior art only the specific recitation of the washer tub being lifted or lowered. As for the extension, Japan'916 discloses an extension that inherently blocks parts provided in the space behind the washer tub, to have the same blocking while the tub is lifted or lower by heavily loaded dishes, is also deemed to be inherent.

5. Applicant's arguments with respect to claims 1-4 have been considered but are moot in view of the new ground(s) of rejection.

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to FRANKIE L. STINSON whose telephone number is (571) 272-1308. The examiner can normally be reached on M-F from 5:30 am to 2:00 pm and some Saturdays from approximately 5:30 am to 11:30 am.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Michael Barr, can be reached on (571) 272-1700. The fax phone number for the organization where this application or proceeding is assigned is 571-272-8300.
